Turkish Journal of Clinical and Experimental Ophthalmology

AIMS AND SCOPE

Turkish Journal of Clinical and Experimental Ophthalmology is a double-blind peer-reviewed, international periodical about glaucoma and cataract. The publication language is English. Turkish Journal of Clinical and Experimental Ophthalmology is published quarterly (March, June, September and December).

The aim of the Turkish Journal of Clinical and Experimental Ophthalmology is to publish research articles on original issues of the highest clinical and scientific quality at international level. Along with this aim it publishes reviews, short editorials articles, original case reports and figures covering fundamental innovations dealing with education.

The required knowledge for primary aid practitioners, family practitioners and public health specialists along with ophthalmology specialists is assessed and relevant issues are addressed in the Turkish Journal of Clinical and Experimental Ophthalmology.

The journal's editorial and publishing process is adherent to standards of ICMJE and COPE.

COPYRIGHT

Any of the articles, drawings, figures and tables published in Turkish Journal of Clinical and Experimental Ophthalmology can not be published or reproduced in whole or in part without the prior written permission of the publisher. For scientific purpose (on condition that the reference is expressed) summerizing and quotations can be done.

The authors are responsible for their articles, figures and photos and the companies are responsible for their advertisements.

Turkish Journal of Clinical and Experimental Ophthalmology is a periodical publication, Included in TUBITAK ULAKBIM Turkish Medical Database, Index Copernicus and EBSCO Index.
